

REMARKS

Applicant notes that the application was filed on February 18, 2004 and no office action has been issued.

Two attorneys were working together over e-mail, and the reviewing attorney renamed his draft "draft8," which was the same name assigned by the other attorney a revision performed while the reviewer had his copy. Hence the most recent revision was not made due to attorney error, and the one submitted included incorrect data. Other typographical errors noted during this amendment are also corrected.

Two additional water-soluble vitamins or herbs, horse chestnut and vinpocetine are added to the specification and the claims. Support for these additions is found on page 18, line 6, paragraph [0050], "In a specific embodiment, the compositions of the present invention may be used for any type of water-soluble nutritional supplement, including herbal products such as the leaf."

Applicant respectfully submits these amendments as clarification and without adding new matter. The amendment is made to correct errors, except for the amendment to claim 4. Support for that amendments is found on page 5, line 14, paragraph [0013] describing capsules; page 18, line 2, paragraph [0049] that states "a gel capsule, either soft or hard gel"; and page 22, lines 11-12, paragraph [0063] "inside a hard gel capsule or other suitable capsule or carrier."

However, should there remain unresolved issues it is respectfully requested that the Examiner telephone Nancy Johnson, Applicants' Attorney at 775-751-3636 so that such issues may be resolved as expeditiously as possible.

Respectfully Submitted,

Date
